

# TIGER CARPET

FOOD BY FIRE

adlib  
KHON KAEN

Immerse yourself in the astounding beauty of the Tiger Carpet, where two ferocious tigers are ready to leap off the rug as if they were alive. This masterpiece seamlessly blends intricate craftsmanship with eco-friendly global innovations. Created by skilled artisans in Khon Kaen, Thailand, it reflects nearly 40 years of expertise and features MONSILK Upcycling technology, crafted with 3,287 recycled plastic bottles collected from Thai oceans. These bottles are meticulously cleaned, recycled, and transformed into durable, high-quality fibers that are also easy to maintain.

The Tiger Carpet not only elevates the aesthetics of any space but also stands as a symbol of eco-conscious innovation. Moreover, it supports local artisans, allowing them to thrive within their communities rather than migrating to larger cities. By fostering job creation, preserving family bonds, and sustaining local culture, the Tiger Carpet becomes a true "living art," embodying sustainability and cultural heritage.
